## Data Protection Waiver

Recent changes to Data Protection regulations make it necessary to update the club records. On this form is a list of items that are now required to be signed for individually. This is something that the Club has done for many years, but now, the new regulations require us to sign a form. All club membership data such as telephone numbers, home addresses etc. are held in a secure folder in two separate locations that are individually firewalled, and password protected. This ensures that in the event of a computer failure all the data will be recoverable. Recent changes in the Data Protection regulations prohibit the Club from passing on individual members' details to other members of the Club without permission. We as a club have done this in the past as matter of course. All data is held by the Club Secretary and is not shared with any other member of the committee. The Club will not pass on any data to third parties for any reason without first consulting the membership.
